Dr. Weidner Was Speaker At Regional Meeting

Professional workers from 13 Southern states met in Birmingham August 18 to 21 in a Southern Regional Conference on Wartime Clothing and Farm Food. Dr. Garland Weidner, Coffee County Health Officer, addressed the conference at the evening session on Wednesday, August 19, and took part in a radio broadcast on Thursday. Dr. Weidner reported on the work of the Coffee County Council of Workers, and stressed the increased benefits to the people when professional workers cooperate. During 1941-1942 the programs of the Coffee County Council have centered around the theme of National Defense. Many professional workers and organizations have cooperated. Now the cooperation of all citizens is needed.

To win the war we need to prevent waste and to produce more of what we need. Every citizen can help. We need to prevent waste of essential material and we can help to prevent waste of human life and energy.

Essential materials and the efficient work of healthy people is needed. Anything that causes waste of either material or health helps the Axis. Each citizen needs to study his own life to make sure that he is not wasting his health. Each citizen needs the help of those who can advise about well-balanced diets for building and keeping efficient bodies and minds. Each citizen needs the assistance of modern education, dentistry and medical service. Each community now as never before, needs its people educated, needs dentists and doctors and an efficient public health organization with a sufficient staff of trained workers to fill its increasingly important responsibility of preventing needless loss of life and efficiency from preventable causes.

Brill's Disease Now Prevalent In S. E. Alabama

We are in the midst of an epidemic of typhus fever or Brill's disease. An unusually large number of cases are occurring in Southeast Alabama. All citizens are requested to cooperate in preventing rats and preventing the breeding of rats, says Dr. Garland Weidner, Coffee County Health Officer.

During July 35 cases of typhus were reported for the whole state. Of these 35 cases, 22 occurred in the four counties around Camp Rucker—Coffee, 7, Dale, 6, Geneva, 4, Houston, 4, and 3 in Enterprise every Tuesday from 1:30 to 6:00 p. m.

A CHALLENGE—AND AN OPPORTUNITY

The greatest shortage in the American economy is rubber. As a result drastic changes in the American mode of living will probably be necessary. Most of Europe has gone back to the "horse and buggy days," except there are few horses and no buggies. The automobile, for civilian use, is almost non-existent in Europe.

In our opinion, this change in our own economy right here in Coffee County is fast becoming a reality. Tires are fast wearing out and there aren't any more. To you, our mind, presents a challenge and an opportunity to Coffee County merchants. This paper during the years, has preached the doctrine of "trade at home" and it seems now that the easy days of traveling to great distances to shop are about over.

In America the automobile greatly changes our living. It helped make cities bigger and small towns smaller, because people thought nothing of going 50 to 100 miles to shop. As automobile use is restricted, the small town will become more important. What does this mean to you, Mr. Local Business Man?

Doesn't it suggest that the small town is about to have a rebirth as a trading center, and in this change into the opportunity with a capital "r"? For these people "who have thought nothing of going 50 to 100 miles to shop" are going to think about the wear and tear on their

Towers of Truth

Chinese, Finnish, Tagalog, Dutch, Spanish—programs in more than a dozen tongues go out from the towers of General Electric stations WGEA and WGO, Schenectady, and KGEI, San Francisco.

1. They provide authentic war information for news-starved peoples around the globe, enterprising U.S. forces abroad. These G-E short-wave stations . . .

2. . . have special antennas "pointed" at Australia, South America, China, Europe—making reception there almost as strong as from local stations.

3. They provided the only U.S. programs that reached Bataan. People in conquered lands risk their lives to listen. Smuggled letters say they bring hope of release.

General Electric believes that its first duty as a good citizen is to be a good soldier.

DUST ROBS you of light. Keep dust wiped off lamp bulbs, reflectors and shades. This helps you get more light for your money. Dust robs your electric refrigerator of its efficiency. Keep it brushed off the radiator. Use a soft cloth or brush on the radiators of refrigerators with sealed-in units. An old tooth brush is fine for cleaning radiators of refrigerators with open-type units. Be sure to pull the plug before you start dusting so the mechanism won't start while you have your hand close to it. Removing dust each time you defrost is a good practice.

All men do not go into the Army with the same philosophy or with the same mental attitude. Some are frankly frightened at the prospect of fighting; some are unconcerned with the whole procedure; others appear eager for combat, eager to make every sacrifice that will help crush democracy. And, too, there are the conscientious objectors, those who have religious scruples against fighting, even in defense of their own country.

The behavior of one of these conscientious objectors recently caused Ralph McGill, in The Atlanta Constitution, to draw a striking contrast between the objector's attitude and that of another young American serving in the Army. Wrote Mr. McGill:

"In a conscientious objector's camp in Maryland, Corbett Bishop is reported on a hunger strike against conscription and service in the Army."

"I am adjusting my steel helmet, pistol and gas mask, preparatory to crawling into the 51st Psalm, where I hope to remain for the duration."

"It is a comforting thing, that 51st Psalm, and tailor-made for a soldier. The Psalmist sings:

"He that dwelleth in the secret place of the Most High shall abide under the shadow of the Almighty."

"I will say of the Lord, He is my refuge and my fortress; in Him will I trust."

"He will cover thee with his feathers, and under his wings shalt thou take refuge. His faithful shall be shield and buckler."

"Thou shalt not be afraid for the terror by night; nor for the arrow that flieth by day."

"Nor for the pestilence that walketh in darkness; nor for the destruction that wasteth at noonday."

"A thousand shall fall at thy side, and ten thousand at thy right hand; but it shall not come nigh to thee."

"Because thou hast made the Lord, which is my refuge, even the Most High, that habitation, neither shall any evil befall thee, neither shall any plague come nigh that day."

"For he shall give his angels charge over thee, to keep thee in all thy ways."

"The greatest lines in it, I think, are those which begin: 'Thou shalt not be afraid for the terror by night; nor for the arrow that flieth by day.'"

"It seems to me the better story is that of the young soldier who adjusted his weapons and stepped into the 91st Psalm for the duration."

"I find no emotion in the story of objector Bishop, except to say that if the man wishes to starve himself into eternity and go empty and hungry in body and soul to face his Maker, then let him. 'He is worth no headlines.'"

One halting from the vicinity of the famous "Flying Tiger," General Claire Chennault, and the other from the country of the "Lone Eagle," Lindberg, they "flew" by train to Enterprise to be grounded and to join (matrimonially) America's fighting forces.

Both bridegrooms are stationed at Camp Rucker.

The U. S. Department of Agriculture has announced that the price of edible peanuts this year will be supported at 85 per cent of parity, or an average of about \$124 per ton, while the oil support price will range from \$70 to \$82 a ton, depending on variety.

Mr. Businessman:

Do You Want To Stay In Business?

Uncle Sam May Take Your Dollars

It may be necessary to take practically all of your profits for the next year or so to buy guns, tanks, planes to whip the Japs and Nazis. Whatever it takes we MUST provide if we are to survive. Income taxes are going to mount to provide these implements of war for our soldiers and sailors on the far-flung fighting fronts. Today it is a fight for existence . . . for if we lose the war—profits, business, ALL is lost!

But You Can Keep Your Customers

Hundreds of new customers are moving into this community. Merchandise today is sold to an ever-changing, ever-increasing parade of customers. To preserve your store, your business, you must keep this parade of customers entering YOUR doors. Yes, during the war, Uncle Sam may take your dollars . . . BUT YOU CAN SAVE YOUR BUSINESS IF YOU KEEP YOUR CUSTOMERS!

ALABAMA GETS AWARD FOR BETTER HOMES WORK

AUBURN, Ala. — Competing with all America, the 67 counties of Alabama won for their State the special merit award offered in the 1942 nationwide Better Homes Campaign.

The objective of this annual competitive campaign is to stimulate permanent home improvement with better and happier home living throughout America, says Rina McCaughy, State home demonstration agent and chairman of Better Homes Campaign in Alabama.

In making this special merit award, the National Better Homes Office said: "I am happy to present to you the enclosed special merit award in recognition of the excellent program conducted this year in Alabama."

Alabama counties receiving high merit awards are Cherokee, Coffee, Fayette, Limestone and Marshall. Counties receiving honorable mention are Clay, Lowndes, Madison, Monroe, Montgomery, Walker and Winston.

The community of Caladonia in Cherokee County was especially honored, by receiving the Highest Merit Award—a recognition given to only one rural community in the entire country.

Owners of Alabama farm woodlands will be interested to know that wood-burning stoves will not be rationed. Wood-burning heaters and cooking ranges can be purchased without priorities, if they are available in merchandising stores.

Cotton and paper makers hope to supply the need for new bags while no burlap—or jute—from which it is made—can come from India, largest supply source before the war.

The Division of Forestry of the Alabama Conservation Department maintains over 600 miles of groomed firebreak and 280 miles of truck trails in Baldwin County in its forest protection program.

Keep the above or range clean to make it look better and last longer.

O'DANIEL IS WINNER IN TEXAS SENATORIAL RACE

DALLAS, Texas, Aug. 24—U. S. Senator W. Lee O'Daniel, Fort Worth four salesman who started his political career by campaigning successfully for governor with the aid of a hill-billy band, today apparently had won another victory in his bid for re-nomination to the Senate.

With returns in from all of Texas' 284 counties, most of them complete, he was leading former Gov. James V. Alfred in the runoff Democratic primary by more than 12,000 votes. Victory in the Texas Democratic primary is tantamount to election.

The latest figures furnished by the Texas election bureau were: O'Daniel 438,872; Alfred 426,616.

DEATH OF MRS. H. J. LAMB

Mrs. H. J. Lamb, 59, died at her home in New Brockton Friday morning, August 21, following a brief illness.

Mrs. Lamb, who before her marriage was Miss Mollie Dafford, was a life-long resident of Coffee County.

Surviving are her husband, H. J. Lamb, New Brockton; four daughters, Miss Mary Ethel Lamb, Mrs. E. Lee Driggers, and Mrs. A. B. Herring, of New Brockton, and Mrs. Benny Salter, Enterprise; two sons, Lester Lamb, of Enterprise, and Marion Lamb, of New Brockton; her mother, Mrs. Laura Foreman, of Elba; a sister, Mrs. J. C. Thomas, of near Elba; two brothers, W. T. Danford, of Gadsden, and Ray Danford, of near Elba.

Funeral was held from Bethany Church Saturday at 11 a. m. with Rev. F. J. Fleming, of New Brockton, officiating. Burial was in the adjoining cemetery.

Miss Zedie Rowe, who has been in Montgomery during the summer attending summer classes at Huntington College, returned to her home last Thursday.

ELBA DRAFTS WIFE FROM CAMP IN VIRGINIA

Port Eustis, Va., Aug. 19, Editor Clipper and Friends of Coffee County:

Twenty-two days ago we left the old home town, expecting to go many places, but knew of only one of them in advance. Incidentally, that place was Port McPherson, in our good neighbor state of Georgia, near Atlanta. There we spent four days and nights longing to get home where we would go next. Not all of us were in barracks together; 22 of us from Elba draft board were scattered in some three or four different companies, but we usually contacted each other daily and talked it over.

Sunday was a different day; hundreds of boys packed all their belongings and made ready for shipment to training centers, not one knowing where to. At last they began sorting us out; it resembled me of auction day at Elba stockyards; some in one row, some in another; then, I'm sure, everyone as well as myself, had a feeling that that particular bunch of men would never meet again, but I'm sure each one is getting his part of military training, wherever he may be, and not any of you conceive the idea that he isn't getting it in a hurry. We don't know what the training period calls for in different branches of the service, but in our own it will be only 8 weeks (barring sickness and accident). Only 5 of us were selected for this particular branch of the service (anti-aircraft), and we are divided in to two batteries. Every day we have periods for different things: of army manual of arms, lectures and instructions on air craft machine guns. Naturally we are anxious to try the guns with live ammunition and a target to blast at. As the days go by we will get at that, also range practice with the army rifle. Most everyone is anxious for his opportunity to win a "cockie" or a pack of cigarettes. He has waged with some of his buddies. Incidentally, I have fired the army rifle many times and naturally I have more than a drink and often smokes wagged on my marksmanship. Not that I intend to become a professional gambler, but in Uncle Sam's Army demand automatically changes many a man's tactics. So here we are, just ro-ro-rolling along with our buddies, some four million or so of them, and while we are doing it, don't forget that we hope it will be for your good as well as our own, and don't neglect your duty toward us. We need guns, ammunition and tons to eat. Anything you can raise on your farm will be welcome here on our tables, but don't forget to reserve a few fryers especially for us when we get home again. Some of us will be back, but we will not promise when.

Fred Tindol, Francis English, Dalton Davis, 5th Bn., Ft. Eustis, Va.

In addition to the letter Mr. Tindol has written, I wish to say to all fathers and mothers throughout the whole country; brothers, sisters, kinfolk and sweethearts, if any, to remember that we soldiers would be more than proud for you to realize that we desire to know how you are getting along at home. That you who live in freedom to worship as you please, go when you please and visit whom you please, take time to remember us when you pray. Give our love and best wishes to all.

Pvt. Francis M. English, Bat. B, 5th Bn. A. A. A., Fort Eustis, Va.

FARMERS URGED TO SAVE PARTRIDGE PEAS SEED

AUBURN, ALA. — Farmers with partridge peas growing on their farms are advised by Dr. H. R. Albrecht, assistant agronomist for the Alabama Experiment Station, to save every possible seed, as this crop shows promise of being a good soil builder as well as good for border strips and bird feed.

These peas will grow on land of very low fertility, fit well into orchards, such as pecans, as they are early and will be out of the way before the nuts are ready to harvest and they also re-seed themselves if left from year to year. For these reasons Dr. Albrecht is urging that the plants be combined, cut and threshed or flailed out in order that every seed possible be saved.

Experiments show that partridge peas when fertilized, make as much as 10,000 pounds of green matter per acre when planted in mid-April and cut in mid-August.

Keep pickles well down under brine containing 15 per cent salt, to prevent their becoming soft and slippery. They cannot be restored to normal condition if they get soft.

GRAVES-JACOBS

The chapel of St. Luke's Methodist church in Oklahoma City was the scene of the wedding of Miss Emma Irene Graves, of Shreveport, daughter of Mr. and Mrs. H. L. Graves, of Jackson, La., and Cloy Edwards Jacobs, sergeant, U. S. Army air forces of Oklahoma City. The wedding was solemnized at 7:30 o'clock in the evening, Friday, August 17. Dr. B. Selah officiated at the ceremony.

The bride was attractively attired in a teal blue crepe with navy accessories. Her corsage was of orchids.

Miss Nell Johnk, of Greenwood, the bride's only attendant, was gowned in black with white accessories and corsage of gladioli.

Sgt. Vernon Wagnestack, of Oklahoma City, attended the bridegroom as best man.

Sergeant and Mrs. Jacobs are residing at the Seiber apartments, 1305 North Hudson street in Oklahoma City.

Out-of-town guests for the wedding included Mrs. Martha Johnk, Miss Maria Johnk and Miss Vern Paris, all of Shreveport.

MUELLER SUCCEEDS FRANKIE AS COMMANDER AT RUCKER

(Dothan Eagle)

Brig. Gen. Paul J. Mueller, newly-named commanding officer at the 81st (Wildcat) Division, now training at Camp Rucker for combat duty, is expected to arrive at division headquarters some time Monday evening, the public relations office of the 81st announced Monday.

Gen. Mueller, who had been serving as chief of staff of the Second Army, with headquarters at Memphis, Tenn., succeeds as 81st commander Maj. Gen. Gustav H. Franke, who, public relations officers said, is in Lawson General Hospital, Atlanta, for a physical checkup.

It was reported by public relations officers that Army authorities determined to name a new commander of the 81st when it was found at Lawson General that Gen. Franke would be at the hospital for some time. It was said that complete diagnosis of Gen. Franke's condition had not yet been received at 81st headquarters.

Announcement of Gen. Mueller's appointment was made Saturday night through the office of Lieut. Gen. Ben Lear, Second Army commander. It was said that he would leave immediately to take over his new command.

Gen. Mueller, 50, is a native of Union, Mo., and a graduate of West Point in the class of 1915. He served on the Mexican border in 1916 and in 1918 sailed for France as a battalion commander in the 64th Infantry. Camp Rucker was awarded the Silver Star medal for exceptional bravery in action.

Gen. Franke, 54, had been serving as commander of the 81st since its activation several months ago. He had been at Camp Rucker, however, since April, when the first of the 81st's officers and cadets began to arrive.

It was said at Camp Rucker Monday that Gen. Franke had been in Atlanta for several days prior to the announcement from Second Army headquarters Saturday. While he was absent from Camp Rucker, the division was under acting command of Brig. Gen. William S. Schmitt.
